

Widely used in network switch, server, or NIC with SFP+ to a 10 Gigabit fiber ...

Genuine Amphenol 10GBASE-SR SFP+ Optical Transceiver Modules provide a high-density, high-performance interface for 10-Gigabit Ethernet and Fibre Channel applications.

Our 10 Gigabit SFP+ transceivers are designed to provide high-speed fiber optic connectivity for network switches and media converters equipped with standard SFP ports. These transceivers offer speeds ...

Widely used in network switch, server, or NIC with SFP+ to a 10 Gigabit fiber channel network with multimode LC for Network Attached Storage (NAS), Storage Area Network (SAN), and High ...

The Cisco 10GBASE SFP+ modules give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications.

Our Aqua jacketed 10 meter (~33 feet) 10 gigabit rated fiber optic cable is terminated with LC (Lucent Connector) connectors on both ends. It is an OM3 multimode fiber (50-micron core) designed to ...

FS 10GbE SFP+ module solutions provide a wide variety of 10 Gigabit Ethernet connectivity options for data centers, enterprise wiring closets, Internet Service Providers (ISPs) applications.

The SFP-10G-10AOC is an active optical direct attach cable (DAC) with SFP+ connectors and has 10m length. Cable provides short distance (same shelf) inexpensive connectivity at 10G rates between ...

Multiple vendors introduced single-strand, bi-directional 10 Gbit/s optics capable of a single-mode fiber connection functionally equivalent to 10GBASE-LR or -ER, but using a single strand of fiber optic cable.

These OM3 cables are constructed from the highest quality silica and are laser optimized. They are typically used for 10 Gigabit applications, but can also be used for lower-speed applications. Our ...

This paper has introduced some basic fiber related concepts and outlined some of the key points to understand and consider when designing a 10 Gigabit Ethernet network.
