

12-port fiber optic distribution box

With a maximum capacity of 12 cores and the ability to accommodate 3 pieces of 8-13mm cables, it provides ample space for your connectivity needs. What sets it apart is the innovative design that ...

The 12 Port Fiber Distribution Box can connect up to 2 optical cables, providing space for distributors and 12 fuses. It is equipped with 12 SC adapters and can work in outdoor environments.

AZE's Outdoor Fiber Optic Distribution Box is applicable in FTTH project and suitable for building's outer walls application; They can distribute cables after installing splitters and also can draw out room fiber ...

This 12 port Indoor / Outdoor Wall Mounted Access Termination FTTH Optical Fiber Distribution Box Enclosure is used for managing indoor SC LC FC fiber optic cable and pigtails.

This pre-connected 12 port optical fiber distribution box supports 1 feeder or distribution cable input and 12 drop cable outputs, enabling efficient last-mile fiber connectivity for residential and enterprise ...

Feature: 12 ports optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal; It can effectively terminate, protect and ...

This box comes with one cable inlet and 12 output port, supporting up to 12-core splice. It is made of engineering plastic that provides mechanical protection for fiber splice and joint; the screw lock ...

The optical distribution box features 2 cable inlet ports and 12 cable outlet ports, supporting 12 adapters and up to one 1×8 mini PLC splitter for efficient optical signal distribution, while also allowing up to 20 ...

Constructed from durable cold-rolled steel, this distribution unit is built to meet the increasing demands of Passive Optical LAN and FTTx networks that require high-speed optical fiber connectivity.
