

The 155Mbps SFP Optical Transceiver is a high-performance module capable of transmitting optical signals over distances of up to 120 kilometers on single-mode fiber (SMF). It is housed in an SFP ...

Reachoptics" 155M CWDM SFP Optical Transceiver module 120km 1450~1610nm with pretty good quality, good price, short lead time, best after-sale service and for three years warranty.

Description The SFP transceivers are high performance, cost effective modules supporting data-rate of 155Mbps and 120km transmission distance with SMF. The transceiver consists of three sections: a ...

SFP 155M transceiver is a series of SFP with the speed rate up to 155Mbps and transmission up to 120km. The small form-factor pluggable (SFP) is a compact, hot-pluggable optical module ...

This 155Mb/s CWDM SFP transceiver module provides a 120km transmission distance over single-mode fiber. It features a highly reliable CWDM DFB transmitter and PIN photodiode into a LC Duplex ...

The PHILISUN SFP 155M 1550nm LC DX Transceiver series is a compact, single-mode transceiver designed for long-distance duplex optical data communication, supporting applications such as Fast ...

Product Summary: ATYEUBCN Optical Module TOP-SFP-155M-120D 155M 120km Gigabit Optical Module From ATYEUBCN

The SO-SFP-155M-L120D-C51 is a 1510nm CWDM transceiver for OSC channels in the Smartoptics DCP systems. The optical performance provides a power budget of 34dB. The transceiver is ...

The 1x9 transceiver supports 155Mbps and up to 120Km transmission distance with SMF. The transceiver consists of two sections: The transmitter section incorporates a DFB laser. the receiver ...

Supporting 120km transmission over single-mode fiber at 1550nm wavelength, this 100/155M SFP module provides exceptional 34 dB link budget with speeds from 100-155Mbps. Telcordia compliant ...
