

Our High-Speed QSFP-DD Cables are QSFP-DD MSA compliant and protocol agnostic for worry-free integration into 200/400/800-Gigabit Ethernet and InfiniBand networks.

The QSFP56 transceiver is directly attached at both ends of the cable. Used for stacking and cascading short-distance big data devices. Achieve up to 200Gbps data transmission. Data transmission is ...

Elevate your data center and enterprise network performance with our 200G QSFP56 Direct Attach Cable (DAC). This passive copper cable delivers a robust 200Gbps data transfer rate, providing a ...

NADDOD Ethernet DAC cable solutions provide various of data rates (up to 1.6T) and length choices (up to 7m) for short distance connection applications for RoCE networking.

Designed for high-density, short-reach interconnects, these cables provide a cost-effective, low-power solution for flexible data center and high-speed networking deployments.

This DAC cable supports data rates up to 200Gbps ensuring high-speed connectivity for demanding network environments. The cable length is 2 meters offering flexibility in server room setups and ...

200G DAC Cables from JTOPTICS are Direct Attach Copper cables ideal for short-distance, cost-effective connectivity in top-of-rack or intra-rack applications. These cables provide low-latency, high ...

It provides a QSFP56-to-QSFP56 copper direct-attach solution. 200G QSFP56 DAC cables are suitable for very short links and offer a cost-effective way to establish a 200-Gigabit link between QSFP-200G ...

200G QSFP-DD DAC cables are suitable for very short links and offer a cost-effective way to establish a 200-Gigabit link between QSFP-DD ports of switches/routers within racks and across adjacent racks.

Our factory specializes in producing high-quality 200g dac cable and 200g dac, including 200g qsfp56 passive direct attach copper models--reach out for personalized consultations.
