

# 216-core ribbon single-mode optical cable

In a 216 core ribbon cable, fibers are arranged in ribbons of 12, 24, or more fibers, bonded together in a flat array. This configuration enables mass fusion splicing, drastically reducing installation time and ...

Corning Singlemode - OS2, 216-Fiber, ribbon interlocking armored plenum cables are designed for intrabuilding backbone and horizontal installations. These cables are placed inside spirally wrapped ...

Providing up to 216 fibers in a compact design, the enhanced coupling features ensure the ribbon stack and cable act as one unit, providing long-term reliability in aerial, duct and direct-buried ...

The specially formulated, flame-retardant outer jacket and rugged construction of these cables facilitates routing through riser shafts and long horizontal runs inside buildings.

Fiber Cable, Singlemode, 216 ct., Single Armor, Single Jacket, 12f Ribbon, SMF28e, Dry/Dry - Dual SS Wire Strength Members, Price Per Ft., Our reels have a manufacturing variance up to 5%, you will ...

Providing up to 216 fibers in a compact design, the enhanced coupling features ensure the ribbon stack and cable act as one unit, providing long-term reliability in aerial, duct and direct-buried applications.

Ideal for heavy traffic or more challenging mechanical exposure conditions, this cable design consists of fibers organized into 12-fiber ribbons inside a central tube surrounded by dielectric strength members ...

o The core is protected by a flexible, spirally wrapped aluminum interlocking armor that offers easy, one-step installation. This cable is available in 12 different jacket colors blue, orange, green, brown, slate, ...

Drop Cable, Singlemode, 2 ct., No Armor, Toneable Oval Cable, Zero Water Peak, Dry/Gel. Price Per Ft. Our reels have a manufacturing variance of up to 5%, you will be billed for the quantity that ships.
