

Splitters are typically available in 900µm loose tube and 250µm bare fiber configurations. 1x2 and 2x2 couplers are standardly equipped with protective metal sleeves to shield the split.

A fiber-optic splitter, also known as a beam splitter, is based on a quartz substrate ...

Central wavelength can be customized for different applications. 2. All specifications are before connectors and are subject to change without notice. 3. Measured under the stable mode condition ...

GLSUN 1x2 (2x2) multi-mode optical splitter is often used in data center, fiber optical communication system with features on low excess loss, low insertion loss and excellent environmental reliability.

It features good uniformity, low excess loss, and very low polarization sensitivity. The device is ideal for splitting or combining light with exceptional performance over a wide wavelength range.

It features good uniformity, low excess loss, and very low polarization sensitivity. The device is ideal for splitting or combining light with exceptional performance over a ...

The Aurora/Arris Dual 2x2 Optical Splitter/Combiner delivers reliable, high-performance signal splitting and combining with a 50/50 split ratio, suitable for diverse network applications.

A fiber-optic splitter, also known as a beam splitter, is based on a quartz substrate of an integrated waveguide optical power distribution device, similar to a coaxial cable transmission system.

The FC Series fiber optic coupler is based on our fused biconical taper technology and compact packaging structure. It features good uniformity, low excess loss, and very low polarization ...

The 850nm 2x2 Filter Type Multimode Fiber Splitter is a high-performance optical splitter designed for Multimode fiber optic networks, ideal for use in data centers, enterprise networks, and optical ...

Find high-quality 2x2 optical splitters for fiber optic networks. Shop our range of splitter types, including PLC and outdoor models with various connectors.

2X2 Tapered Optical Fiber coupler SM Fiber Splitter Split Ratio Can be Customized.
