

40G Congo-branded active optical components

These 40G QSFP+ to 4x SFP+ Breakout assemblies are capable of transmitting data up to 4 x 10Gb/s, offering an easy installation with a flexible, multimode fiber cable.

Historical Data and Forecast of Congo Optical Fiber Components Market Revenues & Volume By Banking and Finance Services and Insurance (BFSI) for the Period 2020- 2030

It provides a cost-efficient solution as compared to using discrete optical transceivers and optical patch cables and is suitable for 40Gbps connections within racks and across adjacent racks.

Edmund Optics offers a wide variety of Active Optical Components, including liquid lenses, variable diffusers, or laser speckle reducers, in addition to adaptive optics such as deformable mirrors.

Broadex Technologies' high performance and cost effective 40G Optical Transceiver Modules are built utilizing our innovative COB technology. These reliable and robust QSFP+ modules support high ...

Four-channel full-duplex active optical cable / Reliable VCSEL technology using multimode fiber. Low power consumption <1.5W ?

Amphenol provides a series of 40G QSFP+optical module products, including SR4, eSR4, IR4, LR4, ER4 lite, AOC and AOC breakout series.

The series of product adopts LC or MTP/MPO connector and operates over Single Mode or Multimode optical fiber. They can be used for connections from 150m up to 40km and are suitable for 40G ...

The product is an integrated module containing a micro-optic component and semiconductor material. The module could implement optical-electrical conversion and electrical-optical conversion function. ...

With reaches up to 100 meters, the active optical cable is ideally suited for high-density 40G Ethernet, InfiniBand QDR, and other datacom and high-performance computing applications.
