

Eaton's Load Interrupter Type MVS metal-enclosed switchgear provides safe, reliable switching and fault protection for medium-voltage circuits rated from 2.4 kV to 15 kV. The MVS switch is ideal for ...

S& C Mini-Rupter[®] Switches are field-tested, proven, three-pole group-operated interrupter switches that are ideally suited for line, transformer, and cable switching duties on underground distribution circuits.

ZX is the main product family of ABB's medium voltage gas-insulated (GIS) indoor switchgear for primary distribution. ZX distributes medium voltage electric power safely and reliably in a variety of ...

Learn more about the product portfolio for medium-voltage power distributions following IEC standards. Upgrade your medium-voltage power distribution capabilities to drive reliable performance, greater ...

The voltage transformer supervision feature is used to detect failure of the AC voltage inputs to the relay. This may be caused by internal voltage transformer faults, overloading, or faults on the ...

Eaton's Power Xpert^T XGIS gas-insulated metal-enclosed switchgear is an integrated assembly of SF₆ pressurized tanks, bus and disconnect switches that are coordinated electrically and mechanically for ...

Our Metal-clad and Metal-enclosed MV switchgear feature rugged construction, vacuum circuit breakers, and fusible interrupter switches for protection in demanding medium voltage applications.

Engineered for compact installations and harsh environments, this 38kV GIS medium voltage switchgear delivers sealed switching technology, advanced protection, and reliable operation for critical power ...

Engineered for compact installations and harsh environments, this 38kV GIS medium voltage switchgear delivers sealed switching technology, advanced protection, ...

Siemens SIEBREAK-VCBTM load-interrupter switchgear is a modular assembly of switches, fixed-mounted vacuum circuit breakers, and bus assemblies that are fully integrated both mechanically ...

Eaton load interrupter (Type MVS) metal-enclosed switchgear provides safe, reliable switching and fault protection for medium voltage circuits rated from 2.4 kV through 38 kV. The MVS switch is ideal for ...
