

A well-known French fiber optic sensing company

We pioneer the use of fiber optic vibration sensing to deliver railway insights across multiple disciplines. We monitor track condition, detect trespass and cable security events, and alert ...

OPTEL-TEXYS, a French artisan of measure Our company is first and foremost a human-sized enterprise, which gives it an agility and reactivity that our customers appreciate.

FOSINA is a French startup specialising in the design and commercialization of fiber optic sensing solutions. We combine these with artificial intelligence to safeguard your infrastructure against failure ...

Close and trusting relationships have been established between IFOTEC and its French suppliers. As a result, IFOTEC products and the main sub-assemblies are made in France.

FOSINA is a French start-up, certified ISO 9001, and specialized in distributed fiber optic sensing systems.

Discover all relevant Optical Sensor Manufacturers in France, including Telemecanique Sensors and PHOTONIS

We create the most compelling fiber optic sensing solutions, empowering the world optimize assets, protect lives and the environment.

FOSINA empowers our clients to leverage new applications through our leading distributed fiber optic interrogators and machine learning based algorithms operated at the edge. We combine a 30-year ...

FEBUS Optics is an innovative company based in Pau (France) bringing a new generation of optical fiber based sensor system to the market, in particular for the maintenance and monitoring of ...
