

Today, we're announcing the general availability of Amazon Elastic Compute Cloud (Amazon EC2) P6e-GB200 UltraServers, accelerated by NVIDIA GB200 NVL72 to offer the highest ...

Chairman Young Liu proudly introduced the world's first lighthouse AI server factory, emphasizing that Hon Hai not only holds the title of the world's largest server manufacturer but is ...

The shipment of GB200 racks may offer Nvidia a breather--but the war for AI infrastructure dominance is entering a new, far more complex phase. ...

Industry sources cited by Wccftech indicate that NVIDIA's latest GB200 AI servers are drawing significant orders, with strong demand projected to ...

Nvidia suppliers building its Blackwell AI server racks have reportedly solved a series of technical hurdles, allowing them to accelerate production of the GB200 AI rack.

Compatible with liquid-cooled NVIDIA MGX(TM) modular servers, it provides up to 2x performance for scientific computing, AI for science training, and inference applications over the prior generation.

Industry sources cited by Wccftech indicate that NVIDIA's latest GB200 AI servers are drawing significant orders, with strong demand projected to continue beyond 2025. This ongoing ...

Microsoft Azure is the 1st cloud running @nvidia 's Blackwell system with GB200-powered AI servers. We're optimizing at every layer to power the world's most advanced AI models, ...

Chairman Young Liu proudly introduced the world's first lighthouse AI server factory, emphasizing that Hon Hai not only holds the title of the world's ...

The shipment of GB200 racks may offer Nvidia a breather--but the war for AI infrastructure dominance is entering a new, far more complex phase. Victory will no longer hinge on ...

To meet that demand, Dell Technologies has introduced a new class of AI optimized servers: the Dell PowerEdge XE8712, purpose built for racks running the latest NVIDIA GB200 ...

The NVIDIA GB200 (Grace/Blackwell) high-end AI accelerator represents one of the most complex and demanding hardware products ever assembled. Delivering terascale-and-beyond compute for next ...

The GB200 NVL72 is designed for high-level computing tasks and requires advanced networking to function

optimally. This is facilitated by integrating NVIDIA Quantum-X800 InfiniBand, ...
