

Introducing our Aerial & Direct Burial Fiber Optic Cable Enclosure with Fiber ...

Introducing our Aerial & Direct Burial Fiber Optic Cable Enclosure with Fiber Splice Tray and Fusion Splice Sleeves (60mm). Designed for all-weather protection, this enclosure ensures uninterrupted ...

U-TECK's Fiber Optic Protector Sleeves were developed to protect and strengthen fusion splices on fiber cables. The construction of the three separate protective and strengthening elements of the ...

Each sleeve is meticulously engineered with an outer heat-shrinkable tube, an inner hot-melt adhesive tube, and a steel or ceramic strength member. When heated, the sleeve shrinks to create a rigid, ...

Each sleeve is meticulously engineered with an outer heat-shrinkable tube, an ...

Corning Fiber Optic Splice Closures are designed for splicing fibers in aerial, duct and buried applications.

Built from high-strength PC material and rated IP68, this enclosure provides exceptional protection against water, dust, UV exposure, and harsh environmental conditions, making it ideal for overhead ...

The FPS01 and FPS04 series are specially designed for optical components, where small packaging is a priority. These micro sleeves provide the known reliability of Fujikura sleeves in the smallest possible ...

They are quintessential for upgrades and new network installations, especially in rugged environmental settings. With a tough exterior, our Sleeves prevent possible abrasion of the delicate glass fibers ...

AFL offers robust fiber optic splice closures--including Apex<sup>®</sup>; high-density and LightGuard<sup>®</sup>; weathertight and sealed models--for above-ground, aerial, and buried applications.

Bellcom Technologies" Fiber optic splice sleeve is a combination of high quality stainless-steel and plastic tubing; the ideal construction for protecting your fiber splices.
