

Amphenol's 100G QSFP28 to QSFP28 Active Optical Cable assemblies are a reliable, cost and power efficient, integrated solution which is ideal for high density signal transmission ...

QSFP28 Active Optical Cables (AOC): Utilize optical fiber to achieve longer-distance connections while maintaining a lightweight and flexible form factor, suitable for inter-rack and inter-data center links.

Encased in a QSFP28 package, this high-performance cable offers a reliable solution for long-distance interconnections within data centers, supercomputing clusters, and high-performance computing ...

The AOCQSP28100-001 is an active optical breakout cable designed for use in 100Gigabit Ethernet links. The QSFP28 (100Gbps) interface is electrically compliant and mechanically compliant with the ...

100G QSFP28 Active Optical Cable FEATURES Four-channel full duplex active optical cable Multi-rate capability: 10 Gbps to 25.78125 Gbps per channel Low power consumption: < 2.5 W per cable end ...

These high performance and low power consumption AOCs are Ethernet, InfiniBand and MSA compliant with a robust construction, including a high-strength pull tab latching system which reduces plug loss ...

Amphenol's 100G QSFP28 optical modules include SR4, AOC, AOC break out, CWDM4, LR4, ER4 Lite, ER4 and ZR4 series, which adopt LC or MPO optical ports

The 100G QSFP28 Active Optical Cables are fiber assemblies with QSFP28 connectors designed for direct-attach connections over Multi-Mode Fiber (MMF). These AOCs comply with hot-pluggable ...

The AOCQP28100 is an active optical cable designed for use in 100Gigabit Ethernet links. They are electrically compliant and mechanically compliant with the QSFP28 MSA.

One of the most reliable solutions for high-performance network interconnects is the QSFP28 active optical cable. Designed to support high data rates, these cables are essential for ...

The 100G QSFP28 Active Optical Cables are fiber assemblies with QSFP28 ...
