

The design of this machine is original and novel, the operation of the machine is in accordance with ergonomics, and it is suitable for automatic peeling 2 / 8 core banded fiber.

X-S007 automatic optical fiber coating stripping machine, fibre cable cutting stripping machine It is a new type of fiber optic cable processing equipment that is based on the man

Main products Fiber Optic Polishing Machines, Fiber Optic Polishing Fixtures and 716 more Products from Shenzhen Neofibo Technology Limited on Alibaba

Designed for field work, this automated stripper performs coated fiber stripping tasks quickly and precisely, ensuring optimal performance and reliability for your fiber optic projects.

The Cable Cutting Machines & Stripper Tools category features a comprehensive selection of manual, semi-automatic, and fully-automated fiber cable tools designed for precision cutting and stripping of ...

Equipped with a built-in, high-force fiber tensile tester, the AutoStrip II system can pull the fiber up to 20 N (235 kpsi).

Our products ensure efficient, precise fiber preparation, helping enhance fiber optic network performance and reliability.

Semi-automatic fiber-stripping machines enable precise and efficient processing of coated, buffered, and jacketed glass fibers. Designed for reliability and repeatability, these machines ensure high-quality ...

Buy the high quality and highly efficient fully automatic optical cable stripping machine with our factory. We are one of the leading manufacturers and suppliers ...

Buy the high quality and highly efficient fully automatic optical cable stripping machine with our factory. We are one of the leading manufacturers and suppliers in China, providing you with customized ...

The FBT-800 is a pneumatic fiber stripping machine specifically designed for buffer, coating stripping of optical fiber cables and ribbon fibers. The compact machine strips lengths from 5 up to 35 mm with ...
