

Explore a wide array of 3D modeling and design tools to help simplify the design and specification of Legrand's various cable management systems. Several different systems and workflows are ...

T& B &#174; cable tray files for building information modelling (BIM) ABB is a leading force in the cable tray systems industry. We offer a wide range of products to meet the need for safe, smart and sustainable ...

Modelling tools in MagiCAD enable fast and efficient design of cable tray and conduit systems

Create customizable 3D cable tray layouts tailored to the needs of different industries. AI-supported algorithms minimize potential design errors and deliver reliable results.

Often, the need arises to simulate the cable tray route in 3D model space before its installation in the field to visualize the layout, verify for system clashes/overlaps, and produce isometric drawings.

The all-in-one desktop software for cable tray sizing, fill rate analysis, bracket design, seismic verification, and thermal expansion calculations. Fully compliant with IEC, BS, NEC, VDE, and AREI ...

Design 3D CAD models of plant tray, ladder, and raceway. Features include fast automated cable routing, length and fill calculations, interference analysis.

T& B &#174; cable tray files for building information modelling (BIM) ABB is a leading force in the cable tray systems industry. We offer a wide range of products to meet the ...

Cable Trays Design Software by ESAPRO models cable trays and electrical conduits with precision, generates material lists, checks for interferences, and creates detailed 2D drawings, optimizing your ...

It enables you to model cable trays and their supports faster, more accurately, and with greater ease. Perfect for designers and engineers, Tray Assistant takes your workflow efficiency, design accuracy, ...

You can model vertical elements of the cable tray system, or places where cables descend from the main tray. Select the main tray, click Add drop tray, and specify the height.
