

We recently merged with Ocean-1, a market leader in the supply of ABS approved cable tray systems and related support products to the Marine, Offshore, Onshore, Rig, Shipbuilding and Oil & Gas ...

TechLine Mfg.'s Channel, Angle and Flatbar Fittings efficiently and effectively connect all of our tray products, providing smooth transitions between components to deliver tubing or cable throughout ...

This guide covers the critical steps, from selecting the right electrical cable tray and performing accurate cable fill calculations to managing a safe cable pull through and ensuring all bonding and grounding ...

Our wind certification report provides you with list of acceptable B-Line series cable tray supports, fittings and covers based off of the environmental conditions, cable loading, and type of cable tray in your ...

Need help selecting the right cable ladder or -tray for your project? We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation.

These special heavy duty tray hold down cable tray clamps and expansion guides are ideal for fastening tray to C-Channels and beams, such as those found on bridges.

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer ...

TUBETRACK® was invented in 1954 by Jim White, founder of James C. White Company, and is the most secure and continuous tray system to support instrumentation, process tubing, and pipe.

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

These are the most corrosion-resistant tray systems we offer for routing cable and hose in configurations such as curves, slopes, and tees. Cut, bend, and connect the wire mesh trays.
