

Discover precise fiber solutions for industrial applications. We specialize in custom fiber cables, fiber optic assemblies, and optical sensors.

CST has many standard products to offer our customers. If our standard configurations do not meet your needs, contact us to discuss custom options.

The selection of the right fiber optic sensor and the suitable fiber optics are crucial for reliable object detection even under demanding environmental conditions.

Custom designs with different lengths, fiber cable or sensor tips are available on a special order basis. Contact Industrial Fiber Optics to discuss your custom design and/or to receive a quote.

The buy-direct option is convenient and fast for delivering custom solutions to meet mission-critical client requirements. Custom designing a "sensor" cable configuration from prototype to production-ready ...

We design and manufacture customized state-of-the-art fiber optic sensor systems for the measurement of temperature, strain, and other physical parameters.

Our combined capabilities offer customers a unique ability to develop custom fiber sensors for critical environments, at micron precision. We continuously expand our range of specialty optical fiber ...

Discover the intricacies of fiber optic sensor designs, their key components, applications, and future trends in this comprehensive guide. Learn how they enhance data accuracy and ...

Innovative specialty optical fibers and custom solutions for extreme environments, sensing systems, and precision applications.
