

Digital Display Fiber Optic Distance Sensor

The digital display features LED indication of about 4.5 times larger than conventional model. Orange LED is used instead of red, which is often used as a danger signal.

• Automatic light filling to guarantee detection stability • HD LED dual digital display to master well even subtle changes • The minimum bending radius of fibers can reach 1mm

With Organic EL Display Digital Fiber Sensor FX-250 Series has been released.

The BFX series fiber optic amplifiers feature dual digital LCD display for displaying present value and set value. The amplifier units feature quick response rates up to 50 μ s, allowing detection of fast moving ...

We have more than 5000 types of sensors and have more than 10 ...

Find your distance sensor with digital display easily amongst the 17 products from the leading brands (BANNER, ifm, Baumer, ...) on DirectIndustry, the industry specialist for your professional purchases.

FS-N18 Fiber Optic Sensor, HD LED Dual Digital Display Optical Fiber Amplifier, Long-Distance Optical Communications Diffuse Induction Photoelectric Switch (English Instruction Manual)

Our digital display fiber optic sensors offer sophisticated part detection, diagnostic and self-teach capabilities in a slim package.

Fiber Optic Sensors are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Fiber Optic Sensors.

We have more than 5000 types of sensors and have more than 10 years OEM experience for Germany, Korean, France and US famous brand. Our sensors used on the labelling machine, vibratory feeding ...

These are reliable and easy-to-use devices that have high power, can automatically adjust to real-time conditions, and have a straightforward display that eliminates any guesswork. This series is able to ...
