

Direct Sales of ADSS 6-Core Optical Cable from Canada

Outdoor dry core (ADSS) optical fiber Multi Loose Tube cable with aramid yarns as strength member and polyethylene outer jacket. Product feature: This cable has all dielectric and self-supporting ...

All-dielectric self-supporting fiber optic cable for aerial installation. 30+ year lifespan, 25kV AT performance, lightweight design. 12-288 core options available.

All-Dielectric Self-Supporting (ADSS) cable is designed for outside plant aerial and duct applications in local and campus network loop architectures. A separate messenger support wire hanging system is ...

SOLO® ADSS Cable, 72-Fibers installations where metallic messengers cannot be used. The loose tube design provides stable performance over a wide temperature range and is com

AFL Flex-Span All-Dielectric Self-Supporting (ADSS) cable is designed for aerial distribution power lines, as well as underground duct applications. As its name indicates, there are no metallic components ...

AFL-ADSS® (All-Dielectric Self-Supporting) cable is ideal for installation in distribution as well as transmission environments, even when live-line installations are required.

Designed and manufactured specifically for aerial installation. Reinforced fiberglass with or without sheathing, providing a robust and resistant structure.

We maintain stock of all common fiber counts of ADSS Cable, ready to manufacture and serve as your one-stop solution for ADSS Fiber Optic Cable, FTTH (Fiber to the Home), OSP (Outside Plant), ...

ADSS cables offer a rapid and economical means for deploying optical fiber cables along existing aerial rights-of-way. They are being deployed by cable television operators, telephone companies, ...

We production single layer and double layer ADSS cable for different span, fiber counts includes 2 core, 4 core, 6 core, 8 core, 12 core, 16 core, 24 core, 36 core, 48 core, 96 core, 144 core, 288 core, is ...
