

DIS-S301SX | 1-port Mini-GBIC SFP to 1000BaseSX Multi-Mode 550M Fibre Transceiver

The D-Link's line of Small Form-Factor Pluggable (SFP) transceivers represent an industry-leading combination of performance and affordability.

Find out all of the information about the D-Link's product: fiber optic transceiver DIS-S302SX. Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.

All the transceivers are standard-based and hot swappable. You can remove or replace the transceiver with the system powered on. This allows transceivers to be added or swapped without downtime or ...

The DIS-S301SX is a 1000Base-SX SFP Transceiver for Industrial application. For Multimode fibre (850nm) - distances up to 550m. Certified for harshest industrial environments with operating ...

Typically used for short distance, multi-mode fiber optic is ideal to carry data and transmit audio/video applications within a building with 1000Base-SX technology, enjoy up to 1000 Mbps data transfer rate ...

D-Link's DIS-300 Series Industrial SFP Optical Transceivers are MSA (Multiple Source Agreement) Compliant, hot-swappable SFP transceivers that are specifically designed for D-Link Industrial ...

Experience blazing-fast data transfer rates of up to 1000 Mbps over optical fibre cable. The Gigabit Ethernet port offers ultra-fast network speeds, ideal for demanding network environments. ...

Multimode Fiber Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Multimode Fiber Optic Transmitters, Receivers, ...

This transceiver provides the Gigabit operation and physical compactness to deliver the speed, reliable long-distance (up to 550 m) data transfer, and deployment flexibility that today's fiber networks require.
