

Register now for Data Center POWER eXchange - a first-of-its-kind summit addressing the critical energy challenges posed by the rapid expansion of AI, hyperscale data centers, and cloud computing.

Join us at the Data Center POWER eXchange (DPX)--an exclusive summit uniting utilities, data center operators, policymakers, and investors to confront the energy challenges driving AI,...

Explore the schedule for Data Center POWER eXchange, the power-first conference covering grid, generation, policy, and data centers.

If you're in the energy, infrastructure, or data management sectors, you can't afford to miss this event. Join us as we dive deep into the opportunities, trends, challenges, and solutions shaping the power ...

Connected Plant Conference 2024

In 2026, we plan to meet with thousands of end-users, service providers, and cloud providers at dozens of events across all seven continents and online at virtual conferences. We hope ...

DTECH#174; Data Centers & AI is the premier data center event exploring AI workloads, hyperscale expansion, and the future of grid reliability.

It highlights AI's Impact, Energy Efficiency, Future-Proofing, Infrastructure & Operations, and Security & Resilience, showcasing advancements shaping the future of data centers.

As energy demands evolve with data centers, industrial computing, and AI facilities, 2026 conferences will highlight critical themes like sector electrification and utility-customer dynamics. These events ...

Discover the top utility and data center conferences in 2026 where industry leaders connect on grid resilience, substations, transmission, and large-load growth.
