

Designs, manufactures, and markets high reliability active and passive optical components and modules for space, telecom, industrial, medical, and R& D applications.

Discover fiber optic couplers for dependable light signal transmission and networking. Review types and order the right coupler now.

Thorlabs offers a varied selection of single mode (SM), polarization-maintaining (PM), multimode (MM), and double-clad fiber couplers, as well as 1x8 and 1x16 SM PLC splitters; 1x4, 1x8, and 1x16 PM ...

For a very cost-effective alternative configuration, combining the functions of a tap and monitor photodiode in a single unit, we invite you to review OZ Optics' OPM series of inline optical taps and ...

Our fiber couplers and panels are engineered for optimal performance in data centers, enterprise networks, and telecommunications infrastructure. They provide reliable, high-density connectivity ...

Corning offer a wide range of RoHS compliant SC couplings for all applications in Promise and FTTX networks. All couplings comply with the corresponding Standards IEC 61754-4 and GR-326 for single ...

Control signal strength and split optical paths with Amphenol FOP's durable fiber attenuators and precision optical couplers-ideal for telecom, data centers, and test setups.

Optics Fiber Optics Fiber Optic Components Fiber Optic Couplers Fiber Optic Couplers Fiber-optic couplers are used to split or combine the light contained in optical fibers. Show Filters:

We offer a full line of fiber optic couplers and splitters supporting SM, MM, PM, large core, and double-clad fibers across 300-2000 nm, with power handling up to 100 W and operating temperatures up to ...

Our line of HI REL fused fiber optic components is deployed in environments such as undersea and space where the costs of component replacement are prohibitive and reliability is of premier concern.
