

Essenta Components offer a comprehensive range of fiber optic holders, brackets and clips designed to keep fiber optic cables organized and secure. Our products are made with high-quality materials and ...

The CSC Curved Suspension Clamp is a versatile and durable suspension clamp designed to support figure-8 optical cables in outdoor aerial FTTH network construction.

Aerial Hardware Durable aerial hardware for fiber utility and telecom builds, including brackets, straps, J-hooks, clamps, grounding, and mounting solutions for pole line and aerial cable support.

Fiber Savvy supply a wide selection of Fiber Cable Trays, Ladder Racks, Cable Lacing Shelves, and Mounting Brackets to help organize your fiber network. This Fiber Cable Manager is designed to offer ...

All fiber optic cables have specifications that must not be exceeded during installation to prevent irreparable damage to the cable. This includes pulling tension, minimum bend radius or diameter and ...

These hooks have a curved shape that allows the cables to be easily wrapped around them, keeping them in place and minimizing the chances of tangling or entanglement.

The design provides a 1-5/8" clearance from the surface of the pole to the cable and 3-3/4" clamping surface length. Material: Hot Dipped Galvanized, Ductile Iron

Fiber optic cable sequential numbers are required at each pole location and vault wall. Sequential numbers will identify conduit length, and slack left in vaults and at poles.

Specifically designed to connect the pulling rope with a fiber optical cable. They are composed of several jointed rods and two arched rods to facilitate passage on the pulley and two drawback ...

The FIBERLIGN Fiberglass Brackets are designed to support and mount various types of ADSS hardware when pole space is limited. Each bracket offers several standoff distances and end-fitting ...
