

The AFL 100S Core Alignment Fusion Splicer combines intelligent automation with user-first design to...

Designed for field engineers, telecom operators, and fiber optic contractors, this model integrates built-in VFL and Optical Power Meter (OPM), GUI operation interface, and data logging of ...

Specialized Products offers brand name AFL Fujikura fiber fusion splicers for single fiber and ribbon fiber. Whether looking for a low cost version, or the world's fastest core alignment fusion splicer, AFL ...

Prepared fiber ends are placed in the splicer and automatically aligned and then fused together. This method ensures greater reliability with less light being scattered or reflected back by the splice. The ...

Fusion splicer enable splicing of Fiber Optic Cable with low loss and high reliability. For fusion splicer, we offer two types: Core alignment fusion splicer, which bring high performance and functionality, ...

Learn how to choose the right fusion splicer for your fibre optic projects. Compare core vs cladding alignment, key features, and what matters for performance, speed, and reliability in the field.

Fusion splicers are essential tools for building and maintaining high-performance fiber optic networks. Core alignment models provide the highest precision, while cladding alignment ...

AFL Fusion Splicers provide you with the precision and reliability you need to splice your fibers. We offer a wide range of fusion splicers to choose from, including benchtop fusion splicers, field fusion ...

Explore fusion splicers compatible with single-mode, multi-mode, and specialty fibers. Get machines with rapid splicing and integrated diagnostic tools.
