

1000Base-T GBIC: The Cisco Compatible Gigabit Interface Converter provides full duplex Gigabit Ethernet connectivity to high-end workstations and between wiring closets over existing copper ...

Fully compatible with 10/100/1000 Base-T ethernet connections, MC220L supports auto-negotiation that bridges different speed and duplex modes to a gigabit fiber networks. The stability of gigabit fiber ...

The MC200CM is a media converter designed to convert 1000BASE-SX fiber to 1000Base-T copper media or vice versa. Designed under IEEE802.3ab 1000Base-T and IEEE802.3z 1000Base-SX ...

Gigabit Fiber Media Converters are Fiber-to-Copper Media Converters that provide connectivity for Ethernet, Fast Ethernet, and Gigabit Ethernet devices.

By offering a standard, hot swappable electrical interface, one gigabit port can support a wide range of physical media, from copper to long-wave single-mode optical fiber, at lengths of hundreds of ...

Explore our range of fiber optic media converters designed to extend network distances with high-speed, reliable connections. Perfect for enhancing data transmission and compatibility between fiber optic ...

Understanding the building blocks of your network infrastructure is crucial. When dealing with fiber optic connections, GBIC (Gigabit Interface Converter) and SFP (Small Form-factor ...

The Gigabit SFP media converter offers a flexible and cost-effective way to extend the distance of an existing copper network, the life of non-fiber-based equipment, or the space between two devices, ...

Buy Gigabit fiber media converter designed to convert single mode, multimode of 10, 100 and 1000 Base fiber optic cable. This gigabit media converters support 10/100/1000Mbps transmission speeds over ...

The Gigabit 10/100/1000M Fiber Optic Media Converters are versatile, high-performance solutions designed to seamlessly convert fiber optic signals to Ethernet and vice versa.
