# Fiber optic cable affects house construction

We are renovating an old brick house and since we're already removing the walls finish to replace electrical wiring inside, I decided to run some cat6 around the house too.

Get the facts on dietary fiber foods (soluble, insoluble), high-fiber foods, its health benefits (weight loss), and why it's important to get your daily intake of fiber.

Dietary fiber is material from plant cells that cannot be broken down by enzymes in the human digestive tract. There are two important types of fiber: water-soluble and water insoluble.

The recommended amount of fiber is 21-25 grams per day for women and 30-38 grams per day for men (at least 14 grams for every 1000 calories). Increase fiber in your diet slowly to avoid side effects.
