

Fiber optic splice box with 24 cores one input and one output

The 8 Port FTTH Fiber Distribution Box with 24 cable outlets can house 4 sc duplex adapters and one 1x8 blockless splitter and supports 24 cores splicing.

The compact splice cassettes designed for simple, cost effective low and mid-sized fiber splicing applications. Each cassette is supplied with splice holders that secure and protect both fusion and ...

The HTB8003 24-Ports Fiber Optic Distribution Box is designed for medium-scale fiber termination and distribution in FTTH, telecom, and enterprise applications.

The FOTB-6-24 termination box is designed for higher-capacity fiber terminations, featuring 1 input gland that supports cables up to 20 mm in diameter and a splice capacity of 24 fibers.

Can orderly store fiber connector and remaining fiber, in which the storage disc ...

Infinique Fiber Optic Splice Enclosure has been specifically designed to give greater protection for fiber optic connections. It is made of tough chemical resistant engineering material which effectively ...

?Scope of application?The fiber optic splice box is suitable for overhead, pipeline, direct burial and branch connection of various structured optical fibers.

The FIMP-XL splice box is standard equipped with 12 duplex or 6 quattro adapters. You can make a selection between SMA, ST, SC, LC, FC-PC, SC-RJ, E2000 or E2000-COMPACT adapters.

This is a 24-core fiber splice enclosure. It's built tough with a PC plastic and alloy body that's rated IP68 - that means it's totally dust-tight and waterproof, even if it's submerged.

Can orderly store fiber connector and remaining fiber, in which the storage disc can be up to four layers large capacity and adjusted according to the number of cores connected by the optical cable.

DIN-Rail mounting Fiber Splice boxes for terminating up to 24 cores of glass fiber (Multi-mode or Single-mode)

Fiber optic splice box with 24 cores one input and one output
