The end splice cap (ES-Cap) portfolio is designed to provide a mechanically tough ...

Home Wire Department Heat Shrink Tubing Raychem MCK-2V-CAP 4-12AWG Heat Shrink Stub Splice Cover, 60pcs

Shop our variety of Splicing & Terminating Kits products to meet your every need!

Elaspeed® splices are reliable, because they always shrink uniformly, and there is only one complete unit to shrink. No matter how many splices are installed, the last splice will be as reliable as the first.

Commonly used in conjunction with Heat Shrink Tubing, end caps make it easy to extend the insulating and protective seal of heat shrink from end to end, thus reducing exposed wire tips.

Splice Kit, Heat Shrink, 600V, Conductor Range: 14 AWG - 8 AWG. Provides Abrasion Resistance and Moisture Ingress for 14/3 without ground thru 8/3 with ground in Direct Burial Applications.

These caps have an adhesive lining that melts when the cap is heated and bonds to the underlying surface, creating a water-resistant seal. You can also use them to seal the ends of pipes and wire rope.
