

# High-density modular data center armored units available now

Discover power for AI data centers requirements, including AI compute energy usage, GPUs vs. CPUs power needs, and infrastructure strategies.

The CDM L Series is designed for high-density AI learning and training workloads, offering power densities ranging from 50 to 250kW per rack, ...

Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, today announced the launch of the Vertiv(TM) PowerDirect Rack, a 1U high-density 50V DC ...

Vertiv's record Q4 results highlight surging demand for AI data center infrastructure, as operators accelerate investment in liquid cooling, modular deployment, energy storage, and predictive ...

Intelligent, scalable cooling platforms address power density challenges driven by AI, high-performance computing, and big data demands GREER, S.C., Nov. 17, 2025 - Airsys Cooling ...

The new EcoStruxure Pod Data Center and EcoStruxure Rack Solutions are now available globally. Organizations are deploying AI clusters and ...

Vertiv has unveiled new configurations of its MegaMod HDX system. As demand rises for data centres that can support energy-intensive artificial intelligence and ...

The Prefabricated Modular EcoStruxure Pod Data Centre is now shipping pre-designed and pre-assembled with all components for rapid deployment to support high-density workloads.

The growth of large-scale machine learning, cloud computing, and hyperscale platforms has turned data centers into high-density electrical facilities that resemble industrial power plants more than ...

Vertiv has launched a high-density modular data center offering for artificial intelligence (AI). Dubbed the MegaMod CoolChip, the company said the offering aims to help bring capacity for ...

May 6, 2026 Modular micro-data centers in cooler climates: Geography, strategy and California's role As AI transforms computing into a race shaped as much by climate, water and power ...

The Prefabricated Modular EcoStruxure Pod Data Center is now shipping pre-designed and pre-assembled with all components for rapid deployment to support high-density workloads.

# High-density modular data center armored units available now

Are modular or configurable cooling options available? What CDU (coolant distribution unit) options does nVent provide? Do you support high-density deployments above 30kW per rack? Can air and liquid ...

Whether you're expanding your infrastructure or launching a modular node, our data center solution delivers power, performance, and protection--faster, and with ...
