

Antaira offers a variety of industrial Ethernet switches, including industrial-grade network switches, DIN mount switches, and Ethernet switchboards, that can perform efficiently in adverse weather ...

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

The Westermo range of industrial Ethernet switches are designed for use in harsh environments and allow you to build cost-effective, reliable, secure industrial networks. Whether you require an ...

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

Our robust, EN50155 compliant Industrial Ethernet switches, featuring M12 connectivity, are designed to enable faster and more reliable Gigabit Ethernet networks.

These switches deliver bandwidth levels ranging from 12.8 Tbps to 51.2 Tbps, making them suitable for a wide variety of roles, from traditional data center Top-of-Rack (ToR) deployments ...

Workhorses for a broad spectrum of industrial needs, these modular switches feature high-wattage PoE options, high-speed 10-GE uplinks, and advanced network security capabilities.

M8 and M12 interfaces combine three important advantages in industrial ethernet applications over the familiar RJ interface: a high IP degree of protection, very low space requirements, and a vibration ...

Narrow Ethernet switch, eight RJ45 ports with 10/100/1000 Mbps on all ports, automatic data transmission speed detection, autocrossing function, and QoS

Managed, unmanaged and Power-over-Ethernet (PoE) IP20- and IP67-rated Industrial Ethernet Switches are robust and versatile, helping enable industrial automation and monitoring in challenging ...
