

Ireland Franchise for 800G Transimpedance Amplifier

Analog Devices" optical and logarithmic transimpedance amplifiers (TIAs) offer high performance, single-chip solutions for precise photodiode current-to-voltage ...

Our portfolio of opto-electronics products includes clock and data recovery, optical post amplifiers, laser and modulator drivers, transimpedance amplifiers, transmitter and receiver applications in ...

These products are aimed at high density optical interconnect solutions and are intended for 50G, 100G, 200G, 400G and 800G receivers using ...

Semtech announces production availability of the FiberEdge™; GN1816 and GN1848 chipset to its portfolio of PAM4 Transimpedance Amplifiers (TIAs) ...

Semtech Corporation (Nasdaq: SMTC), a high-performance semiconductor, IoT systems and Cloud connectivity service provider, today announced the expansion of its optical networking ...

Powering the fastest networks on the planet: Marvell's transimpedance amplifiers (TIAs) ushered in the era of 100G and 200G networking and continues its market ...

Mouser offers inventory, pricing, & datasheets for Transimpedance Amplifiers.

The GX39221 is a dual channel 96Gbaud linear transimpedance amplifier (TIA) for 800G and beyond integrated coherent receivers (ICRs). The GX39221 integrates two TIA signal paths for "I" and "Q" ...
