

Japan Telecom Armored Optical Cable Manufacturer

Fibre optic cable solutions for telecom and data infrastructure. Our plants offer large capacities with lower lead time, thanks to our latest-generation equipment and machinery. All our products are ...

Japanese manufacturers are at the forefront of developing advanced fiber optic solutions that power global telecommunications, data centers, and industrial networks.

Robust optical cable with fiber protected by seam welded stainless steel tube Robustness Rodent-proof, Water-proof, Excellent tolerance to lateral pressure enabling installation without a cable duct.

Optical fiber cables need to withstand extreme conditions. Reinforced with Twaron™, they offer strength, durability, and reliability, handling challenges like electric discharges, ice loads, high winds, UV ...

First participating in the construction of major transmission line in North America with large-cross-section high-strength soft aluminum augmented capacity conductor and large-core OPGW, as an Asian ...

Fujikura has been in business over 130 years and is one of the oldest manufacturers of cables and wires in Japan. Throughout Fujikura's history, telecommunications has been a core business making ...

The company, Sumitomo Electric Industries, has a significant history in the production of high-voltage underground cables and the installation of long submarine cables, highlighting its expertise in ...

The company develops, produces and sells optical communications: special optical cables, armored optical cables, jumpers and supporting accessories. The company's main products are: various types ...
