

Leave a notch on the distribution box panel

I'll leave a small amount of slack on anything #8 or larger, because they're annoying to splice. But anything #10 or smaller can be easily spliced if 1 or 2 wires need extending.

The main service disconnect is housed either in the distribution panel or in its own separate box. In the image above, the integral main service disconnect is housed at the main service panelboard.

I'll leave a small amount of slack on anything #8 or larger, because they're ...
