

# Mexico Linear Drive Pluggable Optical 200G

Marvell announced the general availability of a 200G per lane optimized transimpedance amplifier (TIA) and laser driver chipset, enabling 800 Gbps and 1.6 Tbps linear-drive pluggable optics (LPO).

It focuses on the data center network interconnection scenario, targeting to determine the optimal interconnect architecture, define interface specifications of the 800G pluggable optical modules, build ...

Abstract: 100G/lane linear-drive pluggable optics demonstrate interoperability with over 3 dB link margin. Simulations suggest that 200G/lane linear drive requires bump-to-bump losses below 22 dB, but ...

Eoptolink Technology, an advanced optical transceiver solutions provider, uses the OFC 2024 trade show to linear-drive pluggable optics (LPO), ...

At 200G/lane, careful component and system design is required to enable high-performance linear / direct-drive optical interfaces. This paper will present link performance simulation results from system ...

These demonstrations feature advancements in 200G per lane technology, along with new product additions to its portfolio of optical, high-speed analog and mixed signal solutions.

Suitable for short reach links limited optical budget ToR to leaf, some ML links

Half-Retimed Linear Optics creates an easier composite channel, allowing greater margin and robustness Shorter electrical Establishing compliant interfaces allows multiple vendors to ...

The adoption of 200G/lane optical links in data centers lays the groundwork for the eventual deployment of 1.6T and 3.2T optical module solutions with 200G/lane serial electrical interfaces, which will be ...

These high-performance parts have been leveraged in leading module and system level designs and enable highly efficient interconnect spanning both short reach and long reach applications for AI/ML, ...

Comparison to Time-Domain Model E. Chou, et al.\*, &quot;100G and 200G per Lane Linear Drive Optics for Data Center Applications&quot;, OFC 2024 W4H.3, \*authors with Meta
