

Since 1996, we have been distributors of home automation, intrusion systems, video surveillance, residential automation, fire detection, and access control products.

With a maximum splicing capacity of 12 fibers, the FIMP-M splice box is suitable for various applications where moderate fiber connectivity is needed. This feature makes it a practical choice for smaller ...

The Internal/External Distribution Box is designed for the splicing of optical cables in either internal or external applications.

Splice boxes ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes for both the DIN rail and 19" mounting provide ample interior space for the ...

Fiber optic wall boxes and splice boxes by Telegartner offer a maximum amount of ports using a minimum of space. Based on Telegartner's decades of experience, they offer easy and reliable ...

The 72-fiber circular fiber tray, constructed of high impact-resistant Lexan, enables management of up to 144 fibers. The tray's black base and clear lid enable easy accessibility. Ideal for electric utilities ...

The Italy Fiber Optic Splice Box Market is approaching a pivotal growth phase driven by accelerating demand for high-capacity, reliable fiber optic infrastructure.

Here you will find a selection of small and bigger wall boxes for Outdoor- and/or Inhouse-Mounting and form a termination to the laying cable. Different adaptors can be installed.

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITEL, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...

Explore reliable optical fiber splice closures for network deployment. Our closures prioritize reliability, installability, and flexibility.
