

A series of Optical Ground Wire fittings contributes toward connection, protection and stabilisation of power transmission lines. Learn more about them here.

An experienced and reliable supplier of Hardware Fittings and Accessories for Distribution & Transmission Overhead Line Network applications. All Products are manufactured and Type Tested ...

Our RIBE-OPTOFIT® accessories offer the ideal solution for connecting fiber optic overhead cables and terminating the optical signal, and perfectly complement proven RIBE-OPTOFIT® fittings.

Assembly with reinforced suspension clamp and neoprene inner covering, especially designed for OPGW cables. Includes grounding clamps for tower connection. Tension assemblies for suspension ...

An experienced and reliable supplier of Hardware Fittings and Accessories for Distribution & Transmission Overhead Line Network applications. All Products are ...

OPGW is mainly applied in communication line of newly constructed high voltage transmit electricity system with 35 KV or above, or replacement of existing ground wire of previous overhead high ...

PLP transmission, distribution, substation, fiber optic, solar, and EV solutions protect and connect overhead electric power lines and communications networks.

Assembly with reinforced suspension clamp and neoprene inner covering, especially designed for OPGW cables. Includes grounding clamps for tower connection. ...

To ensure that the OPGW cables will operate successfully in a high-voltage network, all aspects associated with the implementation of the technology must be correctly analysed.

modate one or two OPGW or other cables as necessary. The base of the clamp is of die-cast aluminium, whereas the top is a polymeric material. The base ensures electrical bonding of the OPGW and the ...

Explore our range of connector kits for secure and long-lasting OPGW connections.
