

Om3 Fiber Optic 12-core

It utilizes 900µm Tight Buffers, Aramid yarn strength members, and exclusive use of Corning® optical fibers. This cable is rated for all indoor installations, including plenum rated spaces and will have low ...

This 12 fiber indoor armored cable is OM3, Plenum (OFNP) rated and features 900um buffered fibers. When you order products from Anixter, the order is processed within one to two business days. ...

12-core OM3 armored plenum cable for indoor/outdoor networks. CMP-rated, 250um multimode fiber--perfect for high-speed data transmission in harsh environments.

This armored cable consists of 0.9mm tight buffered fiber surrounded by an Aramid yarn (similar to Kevlar®) strength member. The core is protected by a spiral-wrapped steel tube that offers an easy ...

With a low bending radius and lightweight feature, this cable is suitable for both indoor and outdoor installations.

The Panduit®; Opticore®; Interlocking Armored Distribution Cable is an integral part of the Panduit end-to-end fiber optic solution, designed for use throughout intrabuilding backbone, building backbone ...

Composed of 12 multimode fibers (50 micron core), wrapped inside Water-Proof Aramid Yarn and Black PVC outerjacket, the cable is prevented from external damages and last for decades. This fiber optic ...

Material: Plenum Rated, Color: Black, Outer Diameter: 5.5 mm. All jackets and colors for Riser, Plenum, Indoor/Outdoor, LSZH, Burial & Industrial projects.

Ideal for heavy traffic or more challenging mechanical exposure conditions, this ...

HES 12 Core Single Tube Steel Armored Fiber Optic Cable, OM3 50/125µm; MultiMode. Provides high-capacity data transmission and durability.

Ideal for heavy traffic or more challenging mechanical exposure conditions, this cable design consists of fibers organized into 12-fiber ribbons inside a central tube surrounded by dielectric strength members ...
