

25G AOC"s provides a cost effect solution for those same data center applications that require longer distance fixed length 1 to 10 meter interconnect using active optical Ethernet technology.

Its main benefit is bandwidth and management performance, as it is an active multimode fiber optic cable. Although the cost is slightly higher than DAC cables, the benefits are worth considering.

Supports 25Gbps data rate. Maximum link length of 70m on OM3 MMF and 100m on OM4 MMF. Pre-terminated twin axial cable / fiber cable. Low power consumption.

SFP28 is targeted at enabling 25Gb/s to 28Gb/s applications, such as 25Gb/s Ethernet as well as 32GFC Fibre Channel. This 25G SFP28 AOC - active optical cable is an end-to-end enclosed ...

Engineered for low power consumption, high port density, and enhanced data throughput, the SFP28 optical transceiver delivers an efficient and cost-effective path to 25G network upgrades.

A 25G SFP28 AOC fills the practical gap between short copper DAC and modular SR optics. It gives you plug-and-play simplicity, predictable optical performance, and clean cable ...

Amphenol"s 25G SFP28 optical modules include AOC series, which are compatible with IEEE802.3by and IEEE802.3cc. They are compliant with SFP28 MSA, SFF-8431 and SFF-8432, it is ...

These 25G SFP28 assemblies are capable of transmitting data up to 25Gb/s, offering an easy installation with a flexible, multimode fiber cable.

We offer express delivery to Muscat, Salalah, Seeb, Sohar, and other cities in Oman for Ubiquiti 25Gbps SFP28 Active Optical Cable, 5m High Speed Fiber Cable | UACC-AOC-SFP28-5M.

FIBERSTAMP 25G SFP28 AOC active optical cable is used for short-distance interconnection between internal devices in the data center, and complies with IEEE 802.3by 25GBASE-SR Ethernet ...
