

A 10G small form-factor pluggable (XFP) module is a standard, hot-swappable, protocol-independent, and high-speed optical module defined by industry organizations.

Finisar's XFP optical transceiver modules are used in enterprise and datacenter networks. View price, stock and buy direct from Transceiver USA.

Compared to earlier XFP modules, SFP+ is significantly smaller than XFP due to the fact that SFP+ saves PCB area by moving some of the functionality to the main board of the device ...

Perle 10 Gigabit Optical Transceivers are interchangeable, compact media connectors and enable a single network device to connect to a wide variety of fiber types and distances. For use with Perle 10 ...

XFP Optical Modules and SFP+ Optical Modules explained with clear differences, compatibility insights, guidance for 10G network deployment.

Shop reliable and high-speed XFP transceivers for 10G network solutions. Compatible with major brands, our optical modules ensure efficient data transmission and scalability.

Upgrade your network switches with various XFP Module. Guarantee compatibility with Cisco, Arista, HPE and more. Save 80%, Fast shipping & 5-year warranty.

High-performance XFP modules for 10G FC & Ethernet and legacy telecom standards optimized for long-range connectivity.

XFP modules are hot swappable and support multiple physical layer variants. They typically operate at near-infrared wavelengths (colors) of 850 nm, 1310 nm or 1550 nm. XFP modules use an LC fiber ...

The Cisco &#174; XFP Module (Figure 1) offers customers a variety of 10 Gigabit Ethernet and Packet-over-SONET/SDH (POS) connectivity options for data center, enterprise wiring closet, and ...
