

Outdoor 24-core stranded optical cable

This is an Outdoor gel-filled cable which provides extra protection against water penetration. Its dry absorbent polymers eliminate water migration in cable interstices.

The plenum distribution fiber optic cable uses high performance components and construction and is UL Listed in accordance with NEC section 770.179 (a) for use in ducts, plenums and air-handling spaces.

24-core GYTY53 cables are ideal for outdoor backbone and access networks, ...

High-performance 24-core TeraSPEED™ single-mode fiber optic cable, armored with single jacket/single armor construction, gel-filled for moisture protection, and ...

High-performance 24-core TeraSPEED™ single-mode fiber optic cable, armored with single jacket/single armor construction, gel-filled for moisture protection, and designed for outdoor stranded loose tube ...

CommScope outside plant fiber optic cables are meticulously designed to withstand the rigors of outdoor environments while ensuring superior performance and broadband connectivity.

The loose tube gel-free design is fully waterblocked using craft-friendly, water-swellaable materials, which means cable access is simple and no clean up is required.

This 24-core single-mode fiber optic cable features a stranded loose tube construction for superior flexibility and tensile strength. Its steel tape armor provides strong protection against mechanical ...

24-core GYTY53 cables are ideal for outdoor backbone and access networks, particularly in direct-buried routes, tunnels, or ducts where extra mechanical strength is required.

24-Strand with Furcation Tubing OM4 Multimode 50/125 10/40/100 Gig Laser Optimized Fiber Distribution Cable; Choose Connectors, Jacket Type, and Optional Pulling Eye.

The 24 fiber indoor/outdoor armored stranded cable is OS2, Riser (OFRC) rated and features 250µm fibers.

The loose tube gel-free design is fully waterblocked using craft-friendly, water ...

This cable design is available in both riser rated and plenum rated versions for deployment in any inside plant re-code application. The UV-resistant outer jacket, coupled with dry waterblocking technology, ...
