

# Painting Requirements for Communication Tower Bases

This engineering standard defines the minimum requirements for marking and lighting communications towers and other structures that pose hazards to aviation. Any object over 60 meters high or deemed ...

The base of the tower should be cleaned, and a primer should be applied, followed by several coats of paint. The type of paint and method of application will depend on the climate and type of environment ...

The paint should be appropriate for the surfaces to be painted, including any previous coatings, and suitable for the environmental conditions. Surface preparation and paint application should follow the ...

Each new or altered antenna tower structure registered must conform to the FAA's painting and lighting recommendations set forth on the structure's FAA determination of "no hazard," and must be cleared ...

Antenna structures requiring painting under this part shall be cleaned or repainted as often as necessary to maintain good visibility. Evaluation of the current paint status shall be made by using the FAA's In ...

This page contains links to the FCC and FAA web sites explaining height limits for towers and other structures and when they must be marked with red and white paint or white strobe lights in ...

The combination of terrestrial background and direct illumination on the viewed surface of the tower tends to make the tower very conspicuous, with good coloring, even if the paint is faded.

Skyline Tower Painting, a leading tower painting company, offers expert tower painting and re-lamping services nationwide, fully compliant with FAA and FCC regulations on antenna tower marking ...

Our selection of FAA approved tower paint is a pure, 100% acrylic emulsion coating paint formulated for use on galvanized antenna towers and steel surfaces. This tower paint dries quickly, has excellent ...

The contents of the FAA's Advisory Circular (AC) dated 12/4/15 contains key points to consider on tower lighting and tower painting - regardless of height. We will go over a few of the ...
