

Our beam splitters are made from high grade glass material with laser grade surface flatness & surface quality for tighter tolerance on the splitting ratio.

Edmund Optics offers a wide variety of Polarizing Beamsplitters in a range of configurations including plate, cube, or lateral displacement. Plate Beamsplitters are available in many sizes for optimized ...

Cables Plus USA can supply custom fiber optic splitters to meet your specific requirements. Available in PLC splitters, also called Planar Lightwave Circuit. PLC splitters are based on planar lightwave ...

Beamsplitters are common components in laser or illumination systems. Beamsplitters are also ideal for fluorescence applications, optical interferometry, or life science or semiconductor instrumentation. ...

Used in large beam size optical layouts. Used for monitoring optical systems, split beams into different wavelengths, polarizations or intensities.

1064nm Polarization Beam Combiner/Splitter can be used in Fiber Lasers, Raman Amplifier, Sensors and has features of High Extinction Ratio (22dB), Low Insertion Loss (0.6dB), High Return Loss (50dB)

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Thorlabs offers a wide range of optical beamsplitters. Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back surface is wedged and AR coated in ...

Discover optical fiber splitters designed for home theaters and gaming consoles. Aluminum construction for durability.

Thorlabs offers both Plate and Cube Polarizing Beamsplitters for a variety of wavelength ranges and power handling requirements. High-power, broadband polarizing beamsplitters with high extinction ...
