

We will cover intensity modulation formats like Non-Return-to-Zero (NRZ) on-off keying and multi-level Pulse Amplitude Modulation (PAM4), phase-based modulation schemes such as ...

NEC has been developing and manufacturing optical transceivers for more than 30 years since the dawn of the optical communications era. Based on this extensive experience, we provide high-reliability ...

A practical guide to modern optical transmission standards from 10G to 100G Ethernet. Learn the differences between SFP, QSFP, and CFP transceivers, NRZ vs PAM4 modulation, lane ...

Last updated on Apr 29, 2026.

This article discusses the performance metrics for optical modules and how to achieve higher transmission speeds for optical modules.
