

AXIS T8640 PoE+ over Coax Adapter Kit lets you reuse hard-to-replace or long-range Coax cabling when you replace your analog cameras with Axis network cameras. And you can integrate Power ...

The DECA-200 PoE-over-Coax Adapter Kit provides a very cost-effective way to migrate an analog video surveillance system to an IP camera video system by utilizing previously installed coax cabling.

While you'll still need a PoE switch or PoE injector to send power and data using this kit, you no longer need to worry about the expense and effort of replacing your existing coax wiring. You can keep your ...

The LRP-822CS is a multi-channel Long Reach PoE Switch that extends Ethernet and PoE networking up to 1,000 meters over existing coaxial cables that connect to multiple PoE-enabled network ...

Use our award-winning Ethernet over Coax switches and extenders to deliver PoE++ (50W) over coax cabling with up to 6,000ft (1,830m) reach. Leverage any new or existing network infrastructure

The IP01PK PoE over Coax Extender enables you to transmit PoE signals to any TCP/IP 10/100BaseT device using existing coaxial cables, with a transmission range of up to 984ft (300m).

In such cases, power can be provided over existing cable, such as coaxial cabling, which simplifies installation, saves time, and eliminates the cost of new wiring or hiring an electrician.

Four-channel HIGHWIRE Powerstar base adaptor for 100Base-TX Ethernet and POE over new or legacy coax, providing 30W POE output per channel and an integrated GigE network uplink port ...

As an advanced PoE switch, the LRP-1622CS features intelligent PoE functions to improve the availability of critical applications. It provides a quick, safe and cost-effective PoE network solution to ...

While you'll still need a PoE switch or PoE injector to send power and data using ...
