

# Price list for QSFP28DFB distributed feedback laser for data center interconnection

The 100G QSFP28 module solution provides high-performance 100GbE connectivity for data centres, enterprise core & distribution layers, computing networks and ...

The four transmitters are uncooled CWDM Distributed Feedback (DFB) lasers generating four optical 25Gbps output signals, which are multiplexed together at the optical output port.

This distributed feedback lasers buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Explore 26 top manufacturers and suppliers of Distributed Feedback Lasers in our comprehensive photonics buyers' guide. A distributed feedback laser is a type of semiconductor laser diode ...

Our lasers are ideal for telecommunications, spectroscopy, LIDAR, and quantum technologies. We offer affordable prices for DFB lasers with different wavelengths, assembled in various housings, suitable ...

They have a case temperature range of  $0^{\circ}\text{C}\sim 70^{\circ}\text{C}$  and comply with IEEE 802.3bm and QSFP28 MSA standards. The products are primarily used in 100G Ethernet, data centers, and cloud networks

The module is equipped with an EML laser and APD receiver, and reaches a ...

nanoplus DFB lasers are available at any customized wavelength between 2800 nm and 4000 nm. Explore their specifications, packaging options and references here.

The module is equipped with an EML laser and APD receiver, and reaches a transmission distance of 40km at a wavelength of 1310nm. With these features, this hot-swappable transceiver is suitable for ...

The 100G QSFP28 module solution provides high-performance 100GbE connectivity for data centres, enterprise core & distribution layers, computing networks and service provider applications.

By clicking "Choose Item" below, a list will appear that contains the specific center wavelength, output power, and operating current of each in-stock unit. These DFB lasers are housed in a compact, ...

NADDOD 100G QSFP28 Data Center Interconnect (DCI) transceivers deliver ultra-high bandwidth and long-reach transmission up to 80km, ideal for data center disaster recovery, cross-site ...
