

# Removable heat shrink connector box

Made with premium copper cores, these connectors ensure good electrical conductivity and high durability. The heat shrink crimp connectors provide greater pull strength. Packaged in an advanced ...

These connectors feature heat shrink insulation, which completely seals the terminal when heat is applied, providing the most durable and secure insulation for electrical connections.

Your professional online source for heat shrink crimp terminals and heat shrink terminal kits for electrical wire. Red, blue and yellow coded heat shrink terminals provide a tough, environmentally sealed wire ...

?ULTIMATE ALL-IN-ONE KIT?Wire stripper, heat gun, 2000 pcs heat shrink connectors - all in one case with an ergonomic comfort-grip handle, engineered for lightweight, hassle-free transport during outdoor professional ...

Buy HAISSSTRONICA All-in-One Solder Seal Wire Connectors with Tubing Set, Mini Heat Gun for Heat Shrink Tubing, Electrical Connectors Assortment, Organizer Box with Removable Dividers (340PCS) ...

Make secure, color-coded, weather-resistant connections without soldering using this PITTSBURGH(TM) Heat-Shrink Terminal Kit. The tubing has a 3-to-1 shrink ratio for a secure fit.

WIDE APPLICATIONS: High quality 3:1 shrinkage tubing has a heat-activated sealant lining to provide complete secure seal. It's flame-retardant, waterproof, and can be used underground.

Electrical Hub Heat Shrink & Solder Connectors Kit, 131 Pieces Stock No 10-1220 View Product Details \$160.47

We manufacture our crimp heat shrink connectors from pure copper for maximum current flow and minimal voltage drop. The tin coating protects your electrical connections against corrosion.

Apply a heat gun or butane torch to shrink the insulation and firmly grip the wire. As the connector heats up, the enclosed solder melts around the wire for a stronger, more rigid connection than unsoldered ...
