

S-type optical cable clamp

Designed to terminate and anchor the ends of optical cables, absorbing the full mechanical tension load. These clamps provide a firm grip without damaging the fiber core, ensuring both mechanical strength ...

The shell is made of plastic with good insulation and strong UV resistance, which can not only protect the optical cable from the impact of the external environment, but also prevent the short circuit or ...

With its reliable quality, TUOLIMA fiber optic cable clamp has won its reputation. We provide high-quality S-type Drop fiber optic cable clamps and other different types of optical fiber cable clamps for ...

This clamp no need tools when installation and don't damage cable. Stainless steel won't rust, it guarantee long service life, and it can attach to the pole brackets and hooks.

Open hook with self-locking construction perform the easiest installation of fiber optic pole. This anchoring clamp S type is made of two parts, stainless steel bail, and flame retardant ABS body.

S Type Cable Clamp, also known as insulated/plastic drop wire clamp, is a versatile tool that is widely used for securing drop wire on various house attachments. It is made of durable materials and is ...

The S-type drop cable clamp is designed to anchor and support flat or round fiber optic cables on dead-end routes during outdoor FTTH network constructions. It is widely used for securing drop wires on ...

Constructed from durable, weather-resistant materials, the S Type 2 clamp offers superior strength and long-term reliability, making it ideal for outdoor installations. Its design is optimized for flat fiber optic ...

It's characterized by good corrosion resistant performance, good insulating property and long life service. BAUDCOM offer this tension clamp with appropriate fish type, S-type and other FTTH clamps.

The S type cable clamp is used to bind the self-supporting leather cable suspension wire and hang the optical cable on the supporting device, be steadily strengthened and tightened.
