

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

Our beam splitters are made from high grade glass material with laser grade surface flatness & surface quality for tighter tolerance on the splitting ratio.

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission.

Panel Mount Fiber Splitters #FS-RR-132-GH-SASA-M BladeHD(TM) High-Density PLC Fiber Splitter -- 1x32 Single Mode SC/APC Ruggedized PLC (planar lightwave circuit) splitter for the LYNN ...

Beamsplitters operate by splitting light based on reflection/transmission (R/T) ratios or specific properties like polarization or wavelength. Available in cube and plate configurations, these versatile ...

Beamsplitters are optical components used to split input light into two separate parts. Beamsplitters are common components in laser or illumination systems. Beamsplitters are also ideal for fluorescence ...

This beam splitters buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Our beamsplitter cubes can be purchased premounted in cubes that are compatible with our lens tube and cage systems.

The AOA single-mode Planar Lightwave Circuit Splitter (PLCS) are developed based on unique silica glass waveguide process with reliable precision aligned fiber pigtail in a miniature package, it ...

The 1x32 Steel tube PLC Splitter devices have high performance, over a wide wavelength range from 1260nm to 1650nm, and work in temperatures from -40°C to +80°C.

The 1x32 Steel tube PLC Splitter devices have high performance, over a wide ...
