

Seeking to purchase optical modules within a 10km radius

10G SFP+ Transceiver (enhanced SFP, also known as SFP Plus) is a next-generation optical module specified by the ANSI T11 Group for 8.5/10/16Gbps Fiber Channel and 10-Gigabit Ethernet applications.

The transceiver is designed for 10km optical communication applications, which is compliant to 40GBASE-LR4 of the IEEE P802.3ba standard. The module converts 4 input channels (ch) of 10Gb/s electrical ...

This product needs to be used in pairs and matched with fiber converters and optical Ethernet switches with SFP slots; it can be used in Ethernet, telecom, and optical fiber communication and other industries.

Every SFP-GE-SM13-10KM module is environmentally tested in its specific port/platform, which includes compliance verification for distance, wavelength, traffic density, and light.

FiberMall SFP-10G31-LR Compatible SFP+ Module is designed for optical communication applications and supports link lengths up to 10 km over LC duplex SMF fiber.

It won't have any compatibility problem with your Huawei devices. And the Huawei Optical Transceiver, SFP+, 1310nm, 10.3125Gb/s, -8.2~0.5dBm, -14.4dBm, LC, SM, 10km is factory new with original ...

We promise that the product we provide can meet the performance requirements of users, and it is supplied by the user's sample request.

Grandstream F-SM1310-10KM-10G is an ultra-fast, single-mode fiber transceiver module for long-distance optical networking. With a maximum transfer distance of 10 km and a maximum data rate of ...

With its low power consumption, advanced firmware, and compliance with global standards, this module is a future-proof investment for businesses seeking high-performance optical ...

The Cisco Compatible QSFP28 transceiver provides 100GBase-BX throughput up to 10km over single-mode fiber (SMF) using a wavelength of 1331nm-TX/1271nm-RX via an LC connector.
