

NETIO PowerPDU 4KS is a smart PDU (Power Distribution Unit) with 4 metered & switched power outputs and 1x DI. PDU is remote controlled via web interface,... All NETIO power sockets can be ...

It features a patented 5-in-1 socket system compatible with IEC C13, C15, C15A, C19, and C21 plugs, alongside an inclined infeed for easier installation in high-density racks.

The remote control feature of a smart PDU allows users to manage and monitor power distribution from any location via network connectivity. This includes controlling outlets, adjusting settings, and ...

Engineered to be an intelligent power distribution solution, the PE4104 Eco PDU Power Controller ships with 4 power outlets in an IEC/NEMA socket configuration. It provides secure, centralized, intelligent, ...

Intelligent PDU enables efficient use of power resources and makes smarter capacity planning decisions, as well as saving power and money. The instrumentation and control features can ...

NETIO PowerPDU 4PS is a smart PDU (Power Distribution Unit) with four power outlets (4x IEC-320 C13). Each output can be switched on/off individually. NETIO PowerPDU 4PS can be mounted in ...

This enables optimal decisions regarding power and cooling supply allocation. MPDU Pro also offers a variety of personalized and reliable remote control options, providing additional protection to power ...

FOR THE IT PROFESSIONAL: This IT-grade rackmount PDU features a rugged steel chassis, LED indicators for ground and surge protection, and lets you control the power state with power and reset ...

Multi-socket PDUs can incorporate any type of socket and mains lead termination. Environmental ports allow the connection of Temperature and Humidity sensors, Security ports for Access Control, Volt ...

Optimise power management with our Smart PDUs. Remote monitoring, control, and energy efficiency for seamless operations up to 100amp per unit.
