

Trusted manufacturers of RoHS, ISO9001, CE, and FCC certified Ethernet to fiber optic media converters, extenders. Cost effective solutions for network upgrades.

The MC200CM is a media converter designed to convert 1000BASE-SX fiber to 1000Base-T copper media or vice versa. Designed under IEEE802.3ab 1000Base-T and IEEE802.3z 1000Base-SX ...

For high-level immunity to interference and long transmission ranges in industrial applications, media converters transparently convert Ethernet data to fiber optics. Depending on the device and cable, ...

These devices are essential when you need to bridge fiber optic cables with Ethernet cables, especially in long-distance or high-speed network ...

Each of our fiber optic cable Ethernet converters modifies your existing RJ45 terminated Ethernet cable to a fiber optic cable. Whether you need a single or multi-mode Ethernet to fiber optic converter, ...

These devices are essential when you need to bridge fiber optic cables with Ethernet cables, especially in long-distance or high-speed network setups. In this blog post, we'll guide you ...

The MC200CM is a media converter designed to convert 1000BASE-SX fiber to ...

The TC3212 10/100Base-T Ethernet Fiber Optic Converter is specifically designed for long distances and can extend LAN segments up to 80 kilometers and maximize bi-directional, fiber optic ...

Many people ask the same question: Can you use a fiber optic cable with an RJ45 port? The short answer is no - RJ45 connectors are designed for electrical Ethernet signals, while fiber ...

**Media Converter:** This device converts electrical signals from Ethernet to optical signals for fiber optic cables and vice versa. Ensure that your media converter supports the type of fiber optic cable you ...

Converts 10 or 100M Ethernet to Optical Fiber Signals and vice versa. Transmits 10 / 100M Ethernet data over a long distance through fiber optic cables (multi-mode: 3 miles or 5 km).
